

Special Issue

Thermal Comfort and Energy Use in Sustainable Transportation and Buildings

Message from the Guest Editors

Overall Outline

- Focus: This Special Issue aims to pursue the interdisciplinary aspects of thermal comfort and sustainable energy in applications ranging from vehicles to buildings. We seek to foster a comprehensive understanding of the materials and systems used and the integration between vehicles and buildings for enhanced occupant satisfaction and energy efficiency.
- Scope: Innovative materials, system design strategies, advanced thermal management, passenger/occupant behaviors, and smart energy technologies for both vehicles and buildings. Manuscripts employing diverse methodologies, from empirical studies to modeling and simulation approaches, are encouraged.
- Purpose: Combine cutting-edge research and advancements in the field, providing insights for future research as well as solving current problems. By doing so, we aim to contribute to the development of sustainable technologies that provide thermal comfort while minimizing energy consumption.

Guest Editors

Dr. Byung-Wook Kim

Associate Research Scientist, Department of Civil Engineering and Engineering Mechanics, Columbia University, 610 S.W. Mudd 500 W 120th St., New York, NY 10027, USA

Dr. Qilong Cheng

Department of Applied Physics and Applied Mathematics, Columbia University, New York, NY 10027, USA

Dr. Xin He

National Renewable Energy Laboratory, Golden, CO 80403, USA

Deadline for manuscript submissions

20 July 2025

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
