

## Special Issue

# Advances in Sustainable Drainage Systems and Stormwater Control Measures

### Message from the Guest Editors

Sustainable Drainage Systems (SuDS) and Stormwater Control Measures (SCMs) are popular engineering and landscaping techniques used to manage stormwater in urban and rural environments, as well as in transport infrastructures. SuDS/SCMs have been adopted under the framework of green infrastructure (GI) and nature-based solution (NbS) programs worldwide, with the objectives to foster climate change mitigation and reduce vulnerability towards unpredictable challenges and uncontrolled urbanization. While SuDS/SCMs have gained considerable attention between academics and practitioners in the past two decades, as can be drawn from the scientific literature, there are still several fields in need of further research. This Special Issue targets emerging challenges and areas of interest in SuDS/SCMs, identifying and bridging the research gaps, whilst proposing future lines of research for extensive development in the field.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
