

## Special Issue

# Industry 4.0 for Sustainable Construction Project Management

### Message from the Guest Editors

*Sustainability* is excited to issue this call for review papers for a Special Issue. We invite systematic reviews and empirical research on a topic within the domain of Industry 4.0 Sustainability Construction Project Management, with specific alignment with the United Nations Sustainable Development goals. Papers may draw on thematic areas and related subject areas, which may include, but are not limited to the following areas:

- changing nature of project management to create an innovative and resilient built environment sector;
- digital approaches and innovative project management techniques to support Construction 4.0;
- project management sustainable capacity building in educational institutions, government, business and not for profit organisations;
- human factors, organizational and social analysis of practices and interactions that can support environmental, social and economic sustainability;
- educating for ethical considerations for sustainability;
- niche market nurturing and social-technical transitions towards digital and sustainable construction;

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
