

## Special Issue

# Going Net Zero—Case Studies of How Firms Are Managing the Challenge of Ambitious Emissions Reduction Aspirations

### Message from the Guest Editors

We invite you to submit high-quality research manuscripts for this Special Issue of *Sustainability* on “Going Net Zero: Case Studies Analysing Firms’ Strategies for Managing the Challenge of Emissions Reduction Aspirations”. There are increasing drivers for organisations to pursue emissions reduction measures and eventually reach Net Zero emissions. In the aftermath of COP26 in Glasgow, and after numerous declarations of corporate emissions reductions, a rigorous assessment of these efforts is both timely and necessary. Topics of interest for this Special Issue include:

- Corporate Net Zero Strategies and Frameworks;
- Net Zero Methodologies;
- Corporate Carbon Abatement Strategies;
- Carbon Trading Innovation;
- “Corporate Carbon” Lessons Learned and Best Practices;
- Policy Analysis for Net Zero;
- Net Zero Innovation, etc.

Please join me in this key climate mitigation effort.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
