Research on Smart Energy Systems

Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Modeling and analysis methods;
- Advanced technologies for distributed energy resources and microgrid;
- Active distribution network;
- Impact of distributed energy resources (DERs) interconnection on the distribution network;
- Applications of advanced techniques to control and optimization of IESs (integrated energy systems);
- Hybrid (with thermal) distribution systems;
- Coordinated control for smart inverters and integrated energy systems (IESs);
- Enhancing resilience through coordinated multiple energy resources.

We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
