

## Special Issue

# Sustainable Growth in Engineering and Technology Management

### Message from the Guest Editors

This Special Issue aims to explore the latest research, application, and adoption of reliable mobile networks in industrial fields and technology management in technology commercialization, with a focus on sustainability. We willingly welcome all researchers to consider technological advances in mobile networks and the integration of interdisciplinary engineering/science technologies, and further, to contribute to sustainable growth. Topics include, but are not limited to:

- Systems and applications for industrial wireless and mobile networks;
- Sustainable growth platforms, such as smart factories, smart IoT, green communications (5G and beyond);
- Machine and deep learning algorithms in sustainable development;
- Data analytics and data-driven applications for sustainability;
- Challenges of innovation and technology management for sustainability;
- Sustainable methodologies, models and information systems for technology commercialization;
- Any subjects relevant to sustainability in mobile networks and technology innovation management.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
