Special Issue

Sustainability in Through-Life Engineering Services (TES)

Message from the Guest Editors

With this Special Issue, we want to explore functionality, performance, reliability, and availability as well as costin-use for long-life engineering assets, such as planes, ships, land-based vehicles, power plants, heavy machinery, and buildings. The research streams cut across the entire life cycle, emphasising understanding the through-life implications at the intersection with sustainability. It is paramount to have a strong and longlasting relationship between academia and industry to stimulate new approaches and obtain new solutions for ensuring effective sustainability in industrial environments. This Special Issue is expected to become a resourceful collection of valuable scientific works on the above topics, supporting the transition towards more sustainable service engineering cross-sectors. Therefore, manuscripts will undergo rigorous review; they should be well written, unpublished, and report significant advancements in the mentioned domains.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
