

Special Issue

Sustainable Tourism and Hospitality in the Digital Age

Message from the Guest Editors

This Special Issue aims to become a forum for the advancement of scientific knowledge by incorporating papers related to two key variables in the field of tourism and hospitality: sustainability and the digital age. We cannot speak of tourism in general ignoring further aspects which help specify the type of tourism. New tourist segments have developed such as heritage tourism, gastronomic tourism, nature tourism, collaborative tourism, and so on. And this development will be dwarfed by the possibilities that sectors such as artificial intelligence, big data, social networks, etc. will bring. For this reason, the goal of this Special Issue is to provide scientific studies that help understand the variable of tourism sustainability in a world increasingly digitized. Digital age and sustainability must coexist with post-COVID-19 tourism, entailing changes in the way we relate to each other and to the destination, manuscripts that provide a medium and long-term vision about these subjects will be welcomed.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
