

## Selected Papers *Symmetry* 2021—the Third Edition of the International Conference on Symmetry

Guest Editors:

**Prof. Dr. Eduardo Guendelman**

**Prof. Dr. Thomas Curtright**

**Prof. Dr. Raz Zarivach**

**Prof. Dr. Sergei D. Odintsov**

Deadline for manuscript  
submissions:  
**closed (31 December 2022)**

### Message from the Guest Editors

Participants of this conference are cordially invited to contribute a full manuscript to our **Special Issue** "Selected Papers: *Symmetry* 2020—The Third Edition of the International Conference on Symmetry" in the journal *Symmetry*.

We would like to select a number of lectures from the conference to contribute to this Special Issue in the journal *symmetry*. Among these, five papers will be selected to be free of charge, while all other selected contributions will have a 20% **discount** on the on the publication fees. The Special Issue will have representation from all the disciplines participating in the conference where the notion of symmetry plays an important role. Special attention will be paid to interdisciplinary contributions.

This themed collection will be closely aligned with the scope of the event. The **submission deadline** for this Special Issue is **22 April 2021**.

*Symmetry* is indexed by the Science Citation Index Expanded (Web of Science), MathSciNet (AMS), Scopus and other databases, and has an Impact Factor of 1.457 and a 5-Year Impact Factor of 1.323 (Journal Citations Reports, 2016).

## Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (General Mathematics)
