## Symmetry in Structure and Behaviors of Social Networks

Guest Editors:

**Prof. Dr. Fei Xiong**

**Dr. Shirui Pan**

**Dr. Hongshu Chen**

**Prof. Dr. Li Zhu**

### Message from the Guest Editors

This Special Issue aims to highlight and advance contributions in the quickly growing research field of complex structure and behaviors in social networks. We encourage both original research and reviews of research with multidisciplinary methods for social data mining. Research on symmetry and asymmetry in other complex interactive networks, such as scientific cooperation networks, are also welcomed.

Deadline for manuscript  
submissions:

**closed (30 June 2022)**

## Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

**Journal Rank:** JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (General Mathematics)
