Physics and Symmetry Section: Feature Papers 2021

Guest Editors:

Prof. Dr. Stefano Profumo

Prof. Dr. Tomohiro Inagaki

Dr. Olga Kodolova

Deadline for manuscript
submissions:

closed (31 May 2022)

Message from the Guest Editors

We are glad to announce the Special Issue “Symmetry: Feature Papers 2021” online. We aim to introduce a new insight into science development or cutting edge technology related to the physics and symmetry field, which will make a great contribution to the community. It covers topics, original research, and peer-reviewed articles related to the latest research and developments in any field of physics where symmetry plays a key role.

In general, this Special Issue will be a platform for researchers to publish their scientific work, helping them to influence the scientific community as well as the general public.

Message from the Editor-in-Chief

Symmetry is ultimately the most important concept in natural sciences. It is not surprising then that very basic and fundamental research achievements are related to symmetry. For instance, the Nobel Prize in Physics 1979 (Glashow, Salam, Weinberg) was received for a unified symmetry description of electromagnetic and weak interactions, while the Nobel Prize in Physics 2008 (Nambu, Kobayashi, Maskawa) was received for the discovery of the mechanism of spontaneous breaking of symmetry, including CP symmetry. Our journal is named *Symmetry* and it manifests its fundamental role in nature.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Multidisciplinary Sciences*) / CiteScore - Q1 (General Mathematics)
