closed (28 July 2024)

Message from the Guest Editor

Dear Colleagues,

The upcoming Special Issue of *Systems*, entitled "Value Assessment of Product Service System Design", is focusing on exploring and evaluating the worth and effectiveness of product service system (PSS) design. The aim is to delve into methods and criteria for assessing the value PSS brings to various stakeholders, including manufacturers, users, and the environment. The Issue will cover topics like sustainable design, customer satisfaction, economic benefits, and environmental impacts, offering insights into how PSS can be designed and evaluated for maximum value generation.

The aim of this Special Issue is to present, exchange and compare various practical aspects in the field of PSS design and value generation via PSS designed for various industries.

This Special Issue welcomes original research articles, reviews, and literature reviews.

Dr. Mariusz Salwin
Guest Editor

Special Issue

Editor-in-Chief

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), dblp,
and other databases.
Journal Rank: JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (*Modeling and Simulation*)
