Deadline for manuscript submissions:
closed (20 April 2023)

Message from the Guest Editors

Dear Colleagues,

This Special Issue will invigorate systems thinking in practice. It will compile conceptual and practical articles that explore diverse worldviews in pursuit of alternative realities to dominant culture. The aim of the Issue is to demonstrate that by seeking emancipation from the dogma and political constraints of contemporary academia, sponsored research and their legacies of colonialism, systems thinking academics and practitioners may better face the transformative challenges of our present and many futures, by starting from a decolonial perspective.

You are invited to submit a paper that explores the role of systems thinking that addresses the power balances within and between the natural world, human societies, politics, economics, the arts, sciences and cultures. We are interested in original conceptual and empirical papers related. Regarding the topics, more information can be found from:
mdpi.com/journal/systems/special_issues/7I41ZI2782

Special Issue

Editor-in-Chief

Prof. Dr. William T. Scherer
Chair, Department of Systems
and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.
Journal Rank: JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (*Modeling and Simulation*)
