Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

Welcome to our Special Issue titled “Complex Systems for E-Commerce and Business Management”. In this Special Issue, we aim to explore the dynamic and interconnected nature of modern e-commerce and business management systems, focusing on the complexities inherent in their design, implementation, and optimization. Our goal is to shed light on the latest developments, methodologies, and technologies driving innovation in this rapidly evolving field.

This Special Issue aligns perfectly with the scope of *Systems* by addressing the interdisciplinary nature of complex systems within the realm of e-commerce and business management. It encompasses various aspects, including technological advancements, data-driven approaches, system optimization, and the integration of diverse components such as supply chains, customer interactions, and decision-making processes. By exploring the interplay between these elements, we seek to provide insights into the holistic understanding and effective management of modern business ecosystems.

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (*Modeling and Simulation*)
