Service Ecosystems: Resilience and Sustainability

Guest Editors:

Prof. Dr. Monica Drăgoicea

Faculty of Automation and
Computer Science, University
Politehnica Bucharest, Splaiul
Independenței 313, 060042
Bucharest, Romania

Dr. Jürg Meierhofer

School of Engineering, ZHAW
Zurich University of Applied
Sciences, 8400 Winterthur,
Switzerland

Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue intends to concentrate the evaluation of these two concepts around the service ecosystems perspective, to strongly support the ability to adapt. Through their integration of dynamic capabilities and resources, ecosystems can provide a basis for the dynamic rearrangement of existing resources and innovatively advance the formulation of new value propositions for our society.

This Special Issue seeks original contributions on both theoretical and practical aspects related to the following themes, among others:

- Convergent value co creation processes to support resilience and sustainability in service ecosystems.
- The formulation of new value propositions in service ecosystems.
- The (sustainable) value of data in supporting innovative smart service design.

systems

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. William T. Scherer

Chair, Department of Systems
and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*Modeling and Simulation*)
