Deadline for manuscript
submissions:
closed (30 September 2022)

Message from the Guest Editors

Dear Colleagues,

The Special Issue is focused on applying such methods to subjects that somehow impose threats to our society, our planet, and proclaimed fundamental human rights, which can manifest in several domains. Studies that use these methods in the following areas (for example, but not limited to these) are sought:

The management of renewable and nonrenewable natural resources;

- Global warming and climate change
- Epidemics and health policies
- Political instability and conflicts
- Waste management

The methods could include but are not limited to the following:

- Agent-based modeling
- Optimization
- Multi-criteria decision aids
- System dynamics

and Information Engineering,
University of Virginia,
Charlottesville, VA 22904, USA

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q1 (Social Sciences, Interdisciplinary) / CiteScore - Q2 (*Modeling and Simulation*)
