Message from the Guest Editor

Dear Colleagues,

This Special Issue invites scientific contributions proposing new, innovative, and original approaches, review works, case studies, and evaluations of the existing commercial blockchain-assisted supply chain solutions. This Special Issue particularly focuses on, but is not limited to, articles addressing the following:

- Resilient, transparent, and trusted supply chains;
- Authenticity and mitigation of counterfeit products;
- Blockchain on the cloud for supply chains;
- Blockchain and Self Sovereign Identity (SSI);
- Supply chain transparency;
- Supply chain synchronisation;
- Supply chain cost optimisation;
- Trust and legal implications;
- AI-based price comparison models;
- Resource sharing models;
- Supply chain risk management and vulnerability;
- Smart contracts and blockchain;
- Cryptocurrency adoption for supply chains.

Message from the Editor-in-Chief

Systems is a leading venue for the quick and global dissemination of results of cutting-edge research in various areas of systems science and systems-related fields. An increasing number of researchers are realizing the enormous potential of systems thinking in managing the many unprecedented and complex issues in all areas of need. The *Systems* journal provides a home of exceptional quality for the manuscripts of these researchers who often find it difficult to publish their work in conventional discipline focused journals.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), dblp, and other databases.

Journal Rank: JCR - Q2 (*Social Sciences, Interdisciplinary*) / CiteScore - Q2 (*Modeling and Simulation*)
