Machine Learning Methods for Bio-Medical Image and Signal Processing: Recent Advances

Guest Editor:

Dr. Lipo Wang

School of Electrical and
Electronic Engineering Nanyang
Technological University Block
S1, Nanyang Avenue, Singapore
639798, Singapore

Deadline for manuscript
submissions:

closed (15 November 2023)

Message from the Guest Editor

Dear Colleagues,

In the past few years, there has been tremendous success of machine learning methods, especially convolutional neural networks (CNN) and adversarial generative networks (GAN), applied to bio-medical image and signal processing tasks, such as classification, localization, detection, segmentation, and registration. This Special Issue aims at showcasing the recent advances in this exciting field and identifying research obstacles, emerging trends, and possible future directions.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Manoj Gupta

Materials Group, Department of
Mechanical Engineering, National
University of Singapore,
Singapore 117576, Singapore

Message from the Editor-in-Chief

Technologies, provides a single focus for reporting on developments of all technologies, regardless of their application. It is our intention that *Technologies* becomes the journal of choice for both researchers wanting to publish their work and technologists wishing to exploit the high quality research across a wide range of potential applications. Through its open access policy, its quick publication cycle, *Technologies* will facilitate the rapid uptake and development of the research presented, ultimately providing benefit to the wider society.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within ESCI (Web of Science), Scopus, Inspec, INSPIRE, and other databases.

Journal Rank: JCR - Q1 (Engineering, Multidisciplinary) / CiteScore - Q1 (Computer Science (miscellaneous))
