Transformation Process and Toxic Effects of Pollutants in Agricultural Environment

Guest Editors:

Dr. Changbo Zhang

Agro-Environmental Protection Institute, Ministry of Agriculture and Rural Affairs, Tianjin 300191, China

Dr. Liang Peng

College of Environment and Ecology, Hunan Agricultural University, Changsha 410128, China

Dr. Weijie Xue

Agro-Environmental Protection Institute, Ministry of Agriculture and Rural Affairs, Tianjin 300191, China

Deadline for manuscript submissions:

10 April 2025

Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to publish submissions on technologies and products that affect the transport of pollutants and their toxicity changes in the agricultural environment. This may involve the agri-environmental behaviors and processes of pollutants, mechanisms affecting distribution, migration, and transformation processes in soil–crop systems, and agri-environmental health risk assessment. Topics include, but are not limited to, the following:

- The quality of the agricultural environment is affected by human production processes;
- Agricultural environmental pollutants (heavy metals, emerging pollutants, microplastics, etc.);
- The migration and transformation processes of pollutants and their toxicity changes in the water–soil–crop system are driven by human production activities and environmental factors;
- Identify the sources of pollutants in the agricultural environment and their impact on agricultural safety;
- The impact of pollutants in the agricultural environment on food safety production and its treatment technology.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Toxicology) / CiteScore - Q2 (Chemical Health and Safety)
