Assessment of Pollutant Contamination within the One Health Approach

Guest Editors:

Dr. Salvatore Barreca

Department of Chemical Sciences, University of Catania, Viale A. Doria 6, 95100 Catania, Italy

Dr. Dario Savoca

Department of Biological, Chemical and Pharmaceutical Sciences and Technologies (STEBICEF), University of Palermo, 90128 Palermo, Italy

Deadline for manuscript submissions:

30 August 2024

Message from the Guest Editors

For decades, pollution problems have drawn the attention of the scientific and social community.

Recently, we have witnessed a centrality of environmental protection by considering the One Health aspect and, in this context, health prevention through environmental monitoring plays an important role.

In detail, it was highlighted how, due to their toxicity, the presence of emerging and classic pollutants in indoor and outdoor environments plays a central role in establishing human exposure levels to these toxic compounds.

This Special Issue, entitled “Assessment of Pollutant Contamination within the One Health Approach”, will showcase scientific studies regarding the monitoring of several pollutants in indoor and outdoor matrices in order to disseminate information concerning toxic effects by human exposure to these substances.

This Special Issue represents one of the first contributions dedicated to the One Health approach.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Toxicology*) / CiteScore - Q2 (*Chemical Health and Safety*)
