Environmental and Occupational Exposure to Chemical Agents and Health Challenges II

Guest Editor:

Dr. Carina Ladeira

Escola Superior de Tecnologia da Saúde de Lisboa—Instituto Politécnico de Lisboa, Departamento das Ciências do Diagnóstico, Terapêutica e Saúde Pública, Av. D. João II, Lote 4.69.01 | 1990-096 Lisboa, Portugal

Deadline for manuscript submissions:

28 February 2025

Message from the Guest Editor

Human beings live in constant contact with chemical agents—mainly through environmental exposure—which are derived from the occupational setting. Environmental exposure is ubiquitous, originating from air, water, and soil. While some chemicals are short-lived in the environment and may elicit no harmful effects in humans, other chemicals bioaccumulate or persist for a long time in the environment or the human body due to frequent exposure. With that objective and on behalf of this study, translation research should be conducted by using in vitro studies with exposures from real context scenarios adding to the body of knowledge and providing a better understanding of human biomonitoring outcomes, mainly in the chemical mixtures effects assessment.

Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [CAPlus / SciFinder](#), [AGRIS](#), and [other databases](#).

Journal Rank: JCR - Q1 (Toxicology) / CiteScore - Q2 (*Chemical Health and Safety*)
