Deadline for manuscript submissions:

closed (30 September 2021)

# Message from the Guest Editor

Dear Colleagues,

We are pleased to invite you to submit manuscripts for a Special Issue of Toxics on the toxicology and assessment of health risks from chronic inhalation of emissions from tobacco products, including well-validated methodologies and results of clean sample collection and elemental analysis of smoke from combustible tobacco products, "heat, not burn" products, or aerosol from electronic nicotine delivery systems (electronic cigarettes or ENDS) that provide data for toxicological and health risk assessments

For this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following: toxicology, health risk assessments related to the chronic inhalation exposures to inorganic particles and substances transported in tobacco product emissions, and well-validated sample collection and analytical methodology for the production of biomonitoring and product data in support of toxicological and health risk assessments.

We look forward to receiving your contributions.

Dr. Richard Steven Pappas Guest Editor

## **Message from the Editor-in-Chief**

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in Toxics when preparing your next paper.

## **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Toxicology) / CiteScore - Q2 (Chemical Health and Safety)
