# Special Issue

# Application of Microorganisms in Degradation of Environmental Pollutants

# Message from the Guest Editors

We invite original research articles and comprehensive reviews exploring the isolation, characterization, and engineering of pollutant-degrading microbes and their consortia. Topics of interest include elucidating biodegradation pathways and mechanisms, optimizing bioaugmentation and biostimulation strategies, developing microbial biosensors, integrating microbial technologies with physicochemical methods, and applying advanced tools for discovery and monitoring. Studies addressing the degradation of emerging contaminants, overcoming bioavailability limitations, enhancing process efficiency under diverse environmental conditions (soil, water, wastewater, sediments), and assessing ecological impacts are particularly encouraged.

# **About the Journal**

# Message from the Editor-in-Chief

Toxics (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### **Editor-in-Chief**

Dr. Demetrio Raldúa

Department Environmental Chemistry, IDAEA-CSIC, Jordi Girona 18, 08034 Barcelona, Spain

## **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

## **Journal Rank:**

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
