

## Special Issue

# Characterization and Risk Assessment of Heavy Metals in Dust

### Message from the Guest Editors

Due to the strong impact of anthropogenic activities and the weak self-regulating ability of ecosystems, many cities suffer from different levels of heavy metal contamination. As a priority environmental pollutant, heavy metal contamination has been a hot research topic. Road dust is a source and acts a sink for heavy metals, the pollution of which could result in the contamination of the soil, atmosphere, and water, and further threaten urban residents' health. Basic scientific problems such as the pollution, risk, source, and optimal control of pollution factors of heavy metals in road dust still need to be addressed, and systematic qualitative and quantitative research is still needed. In this Special Issue on the "Characterization and Risk Assessment of Heavy Metals in Dust", we aim to focus on the pollution, ecological and health risks, source, and optimal control of pollution factors of heavy metals in road dust. Authors are welcome to submit original research articles and reviews that cover the related fields.

## About the Journal

### Message from the Editor-in-Chief

*Toxics* (ISSN 2305-6304) is an international, peer-reviewed, open access journal which provides an advanced forum for studies related to all aspects of toxic chemicals and materials. We aim to publish high quality work that furthers our understanding of the exposure, effects, and risks of chemicals and materials in humans and the natural environment as well as approaches to assess and/or manage the toxicological and ecotoxicological risks of chemicals and materials. Please consider publishing in *Toxics* when preparing your next paper.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q1 (Chemical Health and Safety)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.8 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the second half of 2025).
