Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editor

Dear Colleagues,

It is my pleasure to announce a new Special Issue dedicated to the therapeutic applications of botulinum toxins. This Special Issue is configured as the continuation of the previous one entitled "Botulinum Toxins: New Uses in the Treatment of Diseases" of which it constitutes the second volume. The purpose of this Special Issue is to update the scientific community on the possible developments of new therapeutic applications of botulinum toxin, also considering the fact that, to date, the list of human pathologies in which botulinum toxin produces favorable effects is constantly growing. This Special Issue is open to any type of contribution, such as reviews, research articles, both in animal models and clinical studies, case reports, or off-label indications. Contributions that explain the mechanisms of action of botulinum toxins, in the various pathologies where they exert their therapeutic action, are also welcome.

Dr. Siro Luvisetto

Editor-in-Chief

Prof. Dr. Jay Fox

Department of Microbiology,
University of Virginia,
Charlottesville, VA, USA

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **CAPLus / SciFinder**, **AGRIS**, and **other databases**.

Journal Rank: JCR - Q1 (*Toxicology*) / CiteScore - Q1 (*Toxicology*)
