Contribution of Uremic Toxins to Chronic Kidney Disease Progression

Guest Editors:

Prof. Dr. Tibor Fülöp

Dr. Mihály Tapolyai

Dr. Lajos Zsom

Deadline for manuscript
submissions:
closed (31 August 2022)

Message from the Guest Editors

In our Special Issue, we are aiming to review new and emerging concepts with regard to the accumulation of specific uremic toxins contributing to the progression of the decline in renal function. We hope that these papers will provide further impetus for research to explore novel approaches of interventions.

As the Guest Editor of this Special Issue I invite you to submit relevant papers for consideration with rigorous peer review and expeditious publication. We particularly welcome papers bringing forth novel concepts or challenging prevailing concepts and clinical inertia. All original investigations, including both clinical and basic sciences studies, as well meta-analyses and scholarly review papers will be considered.

Editor-in-Chief

Prof. Dr. Jay Fox

Department of Microbiology,
University of Virginia,
Charlottesville, VA, USA

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.**

Journal Rank: JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)
