Italy

Message from the Collection Editor

Dear Colleagues,

Health risks related to mycotoxins have increasingly needed to be considered in recent years; research activity moved from monitoring mycotoxins and associated fungi, to using a system approach. The patho-system has, for example, been extensively studied in order to take advantage of powerful tools available for understanding host-fungi interaction and resulting metabolites. Increasing knowledge frequently leads to the discovery of where gaps need to be filled and the endless discovery of compounds and affected matrices show that new research is currently needed. Nevertheless, several steps have been taken to explain the occurrence of mycotoxins and this is crucial for mitigation actions and for minimizing human and animal exposure.

Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **MEDLINE**, **PMC**, **Embase**, **CAPLus / SciFinder**, **AGRIS**, and **other databases**.

Journal Rank: JCR - Q1 (*Toxicology*) / CiteScore - Q1 (*Toxicology*)
