Bioscience, The University of  
Queensland, Brisbane Qld 4072,  
Australia

Deadline for manuscript  
submissions:

**closed (15 September 2010)**

### Message from the Guest Editor

Dear Colleagues,

Natural products lethal to animals (toxins) provide a rich source of leads for new therapeutics for diseases that range from cancer to diabetes to pain. This special issue on "Toxins as Therapeutics" focuses on toxins and toxin inspired leads, including the emergence of venoms as an underutilized source of highly evolved bioactive peptides, that have clinical potential.

Prof. Dr. Richard J. Lewis

Charlottesville, VA, USA

## Message from the Editor-in-Chief

Toxinology is an incredibly diverse area of study, ranging from field surveys of environmental toxins to the study of toxin action at the molecular level. The editorial board and staff of *Toxins* are dedicated to providing a timely, peer-reviewed outlet for exciting, innovative primary research articles and concise, informative reviews from investigators in the myriad of disciplines contributing to our knowledge on toxins. We are committed to meeting the needs of the toxin research community by offering useful and timely reviews of all manuscripts submitted. Please consider *Toxins* when submitting your work for publication.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, CAPlus / SciFinder, AGRIS, and other databases.**

**Journal Rank:** JCR - Q1 (Toxicology) / CiteScore - Q1 (Toxicology)
