Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality papers in the fields of all tropical diseases of global significance, as well as neglected tropical diseases, as defined by the World Health Organization. We encourage researchers from various fields within the journal's scope to contribute review papers highlighting the latest developments in their research field, or to invite relevant experts and colleagues to do so. The scope of the Special Issue includes, but is not limited to: Clinical tropical medicine; Tropical public health; Tropical infectious diseases; Parasitology and entomology; Bacteriology, mycology and virology; Epidemiological and social science studies; Chemotherapy and pharmacology; Immunology; Global health and One Health and so on.

We encourage researchers from various fields within the journal's scope to contribute papers highlighting the latest developments in their research field or to invite relevant experts and colleagues to do so. Original research, reviews and other types of article are kindly invited.

Dr. André Luis Souza dos Santos
