

## Special Issue

# One Health Approach to Mosquito-Borne Diseases: Epidemiology, Prevention and Treatment Strategies

### Message from the Guest Editors

Mosquito-borne diseases have a significant socioeconomic impact on many countries around the world. However, people in tropical regions are more susceptible to mosquito bites, as the hot and humid climate favors their proliferation. The disorderly growth of cities and inadequate sanitation conditions also favor the occurrence of diseases caused by these vectors. The main focus of this issue is to critically analyze innovative strategies for prevention, treatment, and control, as well as new epidemiological data regarding various mosquito-borne diseases. Studies on Dengue, Zika, Chikungunya, Yellow Fever, Malaria, and Leishmaniasis are relevant, but we also encourage submitting papers related to other mosquito-borne diseases. I sincerely hope that this Special Issue will serve as a platform for exchanging high-level scientific knowledge, contributing to developing new approaches in the context of One Health.

### Guest Editors

Dr. Kelvinson Fernandes Viana

Vaccine Development Technology Laboratory, Latin American Institute of Life and Nature Sciences, Federal University of Latin American Integration, Foz do Iguacu 85870-650, Brazil

Dr. Alex Sander R. Cangussu

Laboratory of Vaccine and Biomolecules, Federal University of Tocantins, Gurupi 77402-970, Tocantins, Brazil

### Deadline for manuscript submissions

closed (31 October 2025)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. John Frean

Pathologist, Parasitology Reference Laboratory, Centre for Emerging Zoonotic and Parasitic Diseases, National Institute for Communicable Diseases, University of the Witwatersrand, Johannesburg 2192, South Africa

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Informit, and other databases.

##### Journal Rank:

JCR - Q1 (Tropical Medicine) / CiteScore - Q2 (Public Health, Environmental and Occupational Health)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.2 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2025).
