Neutrinos across Different Energy Scales

Guest Editors:

Prof. Dr. Salvatore Esposito
Department of Physics "Ettore Pancini", University of Naples "Federico II", Naples, Italy

Dr. Ninetta Saviano
INFN Naples' Unit, Naples, Italy

Deadline for manuscript submissions:
closed (30 June 2024)

Message from the Guest Editors

Thanks partly to dedicated large experimental programs that are underway, advances in neutrino physics are rapidly evolving such that the need to take stock of the current situation in this field of research is particularly felt by various scholars of different backgrounds. This Special Issue is intended to meet that need. It is devoted to discussing the theory and phenomenology of neutrino physics (both in standard sectors and beyond standard sectors) at different energy scales, from meV to 10^{19}eV, also reviewing the present experimental situation. We welcome colleagues to submit their new manuscripts on one or more of the following topicsfor this Special Issue (subject to peer review):

- astroparticle physics
- neutrino physics
- primordial Universe
- relic neutrinos
- supernova neutrinos
- solar neutrinos
- atmospheric neutrinos
- high-energy neutrinos
- physics beyond the Standard Model

Message from the Editor-in-Chief

The multidisciplinary journal *Universe* is aiming to follow and, hopefully, to lead to the largest extent as possible the ever-self renovating threads which weave mathematical theories with our understanding of the magnificent natural world. On behalf of all the distinguished members of the Advisory and Editorial Boards, I extend my welcome to this journal and look forward to hearing from the interested contributors and learning about their valuable research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), Astrophysics Data System, INSPIRE, CAPlus / SciFinder, Inspec, and other databases.
Journal Rank: JCR - Q2 (Astronomy and Astrophysics) / CiteScore - Q2 (General Physics and Astronomy)
