### Message from the Collection Editor

The aim of this Topical Collection is to highlight excellent contributions of women physicists in modern astrophysics, cosmology and particle physics and in the fruitful interplay between these domains. All fields in modern astrophysics and cosmology and their fruitful interplay are included— theory, observations, different methods, models, analytic studies, numerical simulations, as well as high energy astrophysics and black holes in all its mass ranges.

- Women physicists
- Astrophysics and cosmology
- Theory and observations
- Gravitation and black holes
