Message from the Guest Editors

Dear Colleagues,

Cities, which are home to over half of the population in the world, are at the frontline of the pandemic crisis and global response efforts. While the pandemic severely influences urban areas, the silver lining is that interventions in the urban transport and real estate market could have a pivotal moment in which crisis can be turned into an opportunity. By prioritising the right investments, we can have a once-in-a-lifetime chance to leverage the pandemic and build back in resilient, inclusive and sustainable cities. The key to seizing this opportunity in formulating and implementing the recovery plans requires our thorough understanding of transport and real estate in the post-pandemic world. This Special Issue calls for papers that can address any of the following questions:

- How do the post-pandemic housing markets evolve?
- How does the pandemic affect urban informal housing for the poor and the vulnerable?
- How does the new trend of work-from-home and e-commerce shape the future urban transport and real estate markets?
- How does the trend of PropTech, such as Uber, Airbnb, iBuyer, etc., reframe the future urban transport and real estate markets?

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the length of the papers.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#) and [other databases](#).

Journal Rank: CiteScore - Q1 (*Urban Studies*)
