

## Special Issue

# Climate Proof Territories: An Interdisciplinary Approach to Urban Resilience—2nd Edition

### Message from the Guest Editors

We would like to invite you to contribute to the second edition of the Special Issue “Climate Proof Territories: An Interdisciplinary Approach to Urban Resilience” to be published in MDPI’s open access journal Urban Science. Continuing the success of its first edition, this Special Issue delves further into exploring innovative urban resilience practices within the backdrop of widespread environmental and socioeconomic fragility exacerbated by the impacts of climate change on the landscape. This Special Issue encourages contributions aimed at promoting a transdisciplinary approach to resilient city planning and management, taking into account not only environmental challenges but also the socioeconomic complexities associated with them. Please click on the links below for the topics covered

[https://www.mdpi.com/journal/urbansci/special\\_issues/5X88086Z57](https://www.mdpi.com/journal/urbansci/special_issues/5X88086Z57) Welcome to review the papers for the First Edition:

## About the Journal

### Message from the Editor-in-Chief

*Urban Science* is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the length of the papers.
