

Special Issue

Data-Driven Smart Ecological Urbanism: Emerging Practices for Integrating the Three Dimensions of Sustainability

Message from the Guest Editor

This Special Issue aims to offer a platform for supporting and advancing the integration of ecological urbanism and smart urbanism on the basis of the IoT and big data analytics and their novel applications so as to achieve the goals of sustainability. Accordingly, it will contribute to enhancing research and practice in data-driven smart ecological urbanism by bringing an informed understanding of the subject to scholars, policymakers, practitioners, and futurists. This Special Issue seeks contributions—in the form of research articles, literature reviews, case reports, futures studies, short communications, project reports, and discussion papers—that offer insights into data-driven smart ecological urbanism. The scope of this Special Issue—which compiles the cutting-edge work of researchers that investigates the state of the art and future perspectives in data-driven smart ecological urbanism—includes, but are not limited to, the following broad topics:

- Eco-urbanism and science fiction;
- ...

About the Journal

Message from the Editor-in-Chief

Urban Science is a scholarly international journal which provides a platform for the exchange of theories, ideas, methods, analyses, and comparative studies of urban and regional development. It is a peer-reviewed, open access journal that publishes high quality original articles, theoretical essays, critical reviews, research notes, and shorter communications. Its broad definition of “science” includes both quantitative and qualitative methods of social, environmental, and spatial analysis. There is no restriction on the maximum length of the papers.

Editor-in-Chief

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science) and other databases.

Journal Rank:

JCR - Q1 (Geography) / CiteScore - Q1 (Urban Studies)
