Message from the Guest Editors

Dear Colleagues,

In this Special Issue, case reports or case series, original research articles, reviews, systematic reviews and meta-analyses, and rapid communications are welcome. Research areas may include (but are not limited to) the following:

- Vaccination against COVID-19;
- Vaccination against monkey pox;
- Vaccination against HBV;
- Vaccination against HPV;
- Vaccination against cancers;
- Vaccination against other types of infectious diseases;
- Mechanism of different vaccines;
- Clinical impact of vaccines;
- Adverse outcomes of vaccines;
- Impacts of vaccines on public health;
- Health inequity of vaccination in medically underserved areas and less developed countries.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **PMC**, **Embase**, **CAPLus / SciFinder**, and **other databases**.

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
