

Communicable Diseases: New and Old Therapies and Preventive Strategies

Guest Editors:

Dr. Cristina Genovese

Dr. Calimeri Sebastiano

Dr. Daniela Lo Giudice

Dr. Vincenza La Fauci

Dr. Vincenza Gianfredi

Deadline for manuscript
submissions:

15 February 2025

Message from the Guest Editors

The current era is characterized by emerging pathogens requiring continuous developments in both preventive and therapeutical strategies. Moreover, the risk of a resurgence of old pathogens necessitates new methods to tackle their spread, especially considering the alarming phenomenon of antimicrobial resistance. Additionally, the current era is also afflicted by reluctance in vaccine acceptance, with "vaccine hesitancy" spreading throughout the world and leading to a reduction in vaccination coverage, despite vaccines' proven safety, efficacy and cost-effectiveness.

In light of the above-mentioned public health challenges, we are pleased to invite you to contribute a paper to this Special Issue, which aims to provide articles on new preventive strategies and therapies and to discuss the challenges and the benefits seen with established ones.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.**

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
