Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to participate in this Special Issue in order to enrich this field of research with your experience and contribute to the understanding of HPV infection of the female lower genital tract. The aim is to have a collection of at least 10 articles, and the Special Issue may be printed in book form if this number is reached. In this Special Issue, original research articles, pre-clinical and clinical trials, meta-analyses, and reviews are welcome. Research areas may include (but are not limited to) the following: immunology, obstetrics and gynecology, virology, and biochemistry.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.**

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
