Studies, University Carlos III of  
Madrid, 28903 Madrid, Spain

Deadline for manuscript  
submissions:

**closed (31 May 2024)**

### Message from the Guest Editor

This Special Issue aims to gather cutting-edge research and insights from experts across various disciplines. We welcome submissions that explore (but are not limited to) the following themes:

- Vaccination strategies in crisis situations: analysis and evaluation of past, current, and potential future vaccination strategies deployed during global crises.
- Communication strategies for successful vaccination campaigns: understanding the role of communication in promoting vaccine uptake, addressing vaccine hesitancy, and countering misinformation.
- Media influence and impact on vaccination: examining the influence of traditional and social media on public perceptions, vaccine acceptance, and the spread of misinformation.
- Misinformation management and debunking strategies: assessing approaches to effectively identify, debunk, and address vaccine-related misinformation during crises.
- Technology and innovation in vaccination communication: exploring the role of digital platforms, artificial intelligence, and other innovative tools in enhancing vaccination communication strategies.

## Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **PMC**, **Embase**, **CAPus / SciFinder**, and **other databases**.

**Journal Rank:** JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
