Deadline for manuscript
submissions:

closed (10 September 2023)

Message from the Guest Editor

This Special Issue aims to provide an in-depth knowledge of host immune responses to SARS-CoV-2 infection. The present Special Issue invites submissions of original research articles and reviews. The areas of research areas may include (but are not limited to) the following: immune response to COVID-19 natural infection versus mRNA vaccines, immune response to COVID-19 variants in vaccinated and unvaccinated people, immune response to COVID-19 infection in people with underlying conditions, the cause of waning immunity in vaccinated people, immune response to COVID-19 in humans and animals, immune response in humans superinfected different variants.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **SCIE (Web of Science)**, **PubMed**, **PMC**, **Embase**, **CAPus / SciFinder**, and **other databases**.

Journal Rank: JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))
