Deadline for manuscript
submissions:

15 August 2024

Message from the Guest Editors

Dear Colleagues,

This Special Issue covers all topics related to HPV in clinical practice from vaccination to screening, and focuses on studies examining the significance of vaccines/therapeutic vaccines in the management of disease. Manuscripts of different types, including long comprehensive research articles or reviews, will be considered for publication in this Special Issue. All submissions will undergo rigorous peer review.

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.
