Message from the Guest Editors

In 2022, we will celebrate the 10th volume of the journal *Vaccines* (ISSN 2076-393X), and we would be happy if you join us on this wonderful occasion.

Vaccines is an international, peer-reviewed, quick-refereeing open access journal published online by MDPI, Basel, Switzerland. *Vaccines* is indexed by SCIE, PubMed (NLM), etc. The Impact Factor is 4.422, ranking 74/162 (Q2) in Immunology, 63/140 (Q2) in Medicine, Research & Experimental in Pharmacology in Web of Science. The inaugural issue was released in 2013 and in 2020 we published the 1000th paper. In 2021, we have achieved the goal to publish 1200 papers in one year. The development of *Vaccines* is rapid.

To mark this significant milestone, we are launching a Special Issue entitled “Vaccines: 10th Anniversary”. This Special Issue will include high-quality papers on topics within the broad scope of *Vaccines*. It is our pleasure to invite you to contribute an original research paper or a comprehensive review article on a trendy or hot topic for peer review and possible publication.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Vaccines (ISSN 2076-393X), founded in 2013, now has a firm history of publishing peer-reviewed, state-of-the-art research papers on vaccines and vaccination in the broadest sense. Areas covered include, but are not limited to, novel and emerging vaccine technologies, building on in-depth knowledge of what constitutes a protective immune response. These can be new vaccines for old diseases, or old vaccines for new diseases. Vaccines against cancer and autoimmune diseases explicitly are also within the scope of the journal. Because public opinion and even government policies towards vaccines and vaccination have changed, vaccine policy and public health issues are major concerns. Climate change will also have an impact on the spread of infectious diseases, and thus also on vaccine and vaccination policies worldwide.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.**

Journal Rank: JCR - Q2 (Medicine, Research and Experimental) / CiteScore - Q1 (Infectious Diseases)
