

## Special Issue

# Respiratory Syncytial Virus (RSV) Vaccine

### Message from the Guest Editor

Respiratory syncytial virus (RSV) remains a significant cause of respiratory infections, particularly in infants and the elderly. Despite decades of research, vaccine development has faced significant challenges. Recent advances in vaccine technology, including viral vectors, subunit vaccines with prefusion protein designs, and mRNA-based platforms, offer promising avenues for effective and safe RSV vaccination. This Special Issue aims to highlight current understanding and explore innovative strategies to develop RSV vaccines that ensure high protection rates and long-lasting efficacy across all age groups.

## About the Journal

### Message from the Editor-in-Chief

*Vaccines* (ISSN 2076-393X) has had a 6-year history of publishing peer-reviewed state of the art research that advances the knowledge of immunology in human disease protection. Immunotherapeutics, prophylactic vaccines, immunomodulators, adjuvants and the global differences in regulatory affairs are some of the highlights of the research published that have shaped global health. Our open access policy allows all researchers and interested parties to immediately scrutinize the rigorous evidence our publications have to offer. We are proud to present the work and perspectives of many to contribute to future decisions concerning human health.

---

### Editor-in-Chief

Prof. Dr. Ralph A. Tripp

Department of Infectious Diseases, College of Veterinary Medicine,  
University of Georgia, Athens, GA 30602-7387, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Immunology) / CiteScore - Q1 (Pharmacology (medical))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.6 days after submission; acceptance to publication is undertaken in 3.3 days (median values for papers published in this journal in the second half of 2024).
