

## Sustainable Traffic and Mobility

Guest Editors:

**Dr. Yanyan Xu**

MoE Key Lab of Artificial Intelligence, AI Institute, Shanghai Jiao Tong University, Shanghai 200240, China

**Dr. Yu Shen**

Department of Transportation Information and Control Engineering, College of Transportation Engineering, Tongji University, Shanghai, China

**Dr. Chunxiao Li**

Department of Data and Business Intelligence, Shanghai Jiao Tong University, Shanghai 200030, China

Deadline for manuscript submissions:

**31 October 2024**

### Message from the Guest Editors

The world is witnessing an ever-increasing demand for transportation and mobility solutions that are not only efficient and convenient, but also environmentally sustainable. As we move towards a more sustainable future, it becomes imperative to address the challenges posed by transportation-related emissions, congestion, and resource depletion. To explore innovative approaches and advancements in sustainable transportation and mobility, we are pleased to announce a Special Issue focused on this critical topic.

The Special Issue on Sustainable Transportation and Mobility aims to bring together cutting-edge research and diverse perspectives from scholars, researchers, and practitioners across the globe. We invite original contributions covering, but not limited to, the following topics:

- Green and Electric Vehicles
- Public Transportation
- Active Transportation
- Smart and Intelligent Transportation Systems
- Urban Planning and Design for Sustainable Mobility
- Policy and Governance
- Environmental Impact and Life Cycle Analysis
- Future Mobility Trends
