Message from the Guest Editors

Animal-assisted therapy is the inclusion of animals within clinical interventions with humans to achieve specific therapeutic goals. Animals may be included in the delivery of clinical care because they are expected to reduce patients' anxiety, stress, or clinical symptoms, increase patients' engagement in therapy, or increase their interaction with practitioners.

We are pleased to invite you to contribute to this Special Issue of Veterinary Science focused on the contributions made by assistance animals and therapy animals to the clinical care of humans. We also welcome studies exploring the value of the engagement between therapy animals and clinicians, as well as studies investigating the health, comfort, and wellbeing of therapy animals during their work.

In this Special Issue, we aim to include original research manuscripts, particularly clinical trials and systemic reviews of clinical trials of animal-assisted clinical interventions. Although we expect that most studies will include domesticated animals, submissions are not limited to specific animal species.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Veterinary Sciences*) / CiteScore - Q2 (*General Veterinary*)
