### Message from the Guest Editors

Dear Colleagues,

*Veterinary Science* has invited us as Guest Editors for a Special Issue entitled “Assessments and Impact of Animal Diseases across the Food Supply Chains”. The aim of this Special Issue is to address the impact of livestock diseases, including endemic diseases, from conception to consumption as a whole system. To address sustainable livestock health and productivity, food insecurity, poverty, malnutrition, and gender inequality, food waste, clean water supplies, local and global markets, food safety, and the impact of urbanization on disease in the food supply chain. We focus on urgent challenges within the One Health Concept that will not be solved without the active engagement of the developed world’s veterinary medical profession accompanied by modernization of veterinary services throughout the developing world.

Prof. Dr. Mo Salman

Prof. Alan M. Kelly

*Guest Editors*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

**Journal Rank:** JCR - Q2 (*Veterinary Sciences*) / CiteScore - Q2 (*General Veterinary*)
