Deadline for manuscript
submissions:

closed (1 October 2022)

Message from the Guest Editors

Dear Vets and Nutritionists,

It is our pleasure to announce a call for papers for our Special Issue in *Veterinary Sciences* on “Recent Advances in Horse Nutrition—an Evidence-Based Approach”.

We would like to encourage new and experienced researchers to contribute papers to include practical and clinically useful research that has immediate impact across different levels. Qualitative approaches, research trials, case reports, proof of efficacy or critical reviews from an animal or client perspective and One Health comparative approaches are encouraged.

We welcome submissions dealing with wide aspects, but not limited to the role of nutrition in (i) preventative medicine to maintain health, performance, and welfare, (ii) as a therapeutic tool, (iii) barriers to client compliance, (iv) effect of processing, (v) novel feed ingredients, (vi) feeding management and behaviour, and (vii) grazing and environmental sustainability.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Veterinary Sciences) / CiteScore - Q1 (General Veterinary)
