

Special Issue

Fish and Shellfish Nutrition Status and Health: Vaccinology and Probiotics

Message from the Guest Editor

The goal of this Special Issue, “Fish and Shellfish for Nutrition and Health: Vaccinology and Probiotics” is to focus on the significance of vaccinology and probiotic therapy in aquaculture to increase the health status of aquaculture and maintain the sustainability of aquaculture. Specifically, the aim is to clarify whether probiotics can influence the gut microbiota’s composition and its interactions with the host to favor aquatic animal health and prevent diseases, either individually or in combination with the vaccines. These new data will help healthcare professionals and update the evidence on the efficacy and potency of vaccines and probiotics in aquaculture farms.

Guest Editor

Prof. Dr. Mehdi Soltani

About the Journal

Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

Editor-in-Chief

Prof. Dr. Patrick Butaye

1. Department of Pathobiology, Pharmacology and Zoological Medicine, Faculty of Veterinary Medicine, Ghent University, Salisburylaan 133, B9820 Merelbeke, Belgium

2. Department of Infectious Diseases and Public Health, Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong, 31 To Yuen Street, Kowloon, Hong Kong SAR 999077, China

Author Benefits

High visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q2 (Veterinary Sciences) / CiteScore - Q2 (General Veterinary)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.2 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2024).
