### **Dr. Subir Sarker**

Biomedical Sciences & Molecular  
Biology, College of Public Health,  
Medical and Veterinary Sciences,  
James Cook University,  
Townsville, QLD 4810, Australia

Deadline for manuscript  
submissions:

**closed (31 December 2020)**

### **Message from the Guest Editors**

Dear Colleagues,

The rate of discovery of viruses both in domesticated animals and wildlife has increased rapidly in recent years and is anticipated to continue to climb over the coming years with the advent of next-generation sequencing technologies and the investigation of biological samples from multiple hosts across broad geographic regions. A better understanding of the viral reservoirs of wildlife and domesticated animals and the generation of more fully characterized animal viral genomes across diverse host species will improve our understanding of viral evolution as well as cross species transmissions.

## Message from the Editor-in-Chief

*Viruses* (ISSN 1999-4915) is an open access journal which provides an advanced forum for studies of viruses. It publishes reviews, regular research papers, communications, conference reports and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced. We also encourage the publication of timely reviews and commentaries on topics of interest to the virology community and feature highlights from the virology literature in the 'News and Views' section.

Electronic files or software regarding the full details of the calculation and experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.**

**Journal Rank:** JCR - Q2 (*Virology*) / CiteScore - Q1 (Infectious Diseases)
