## Cytoskeleton in Virus Infections

Guest Editor:

**Dr. Timothy P. Newsome**

School of Life and Environmental  
Sciences, The University of  
Sydney, Sydney, Australia

Deadline for manuscript  
submissions:

**closed (15 December 2018)**

### Message from the Guest Editor

In this Special Issue of *Viruses*, our goal is to attract research articles that reflect the exciting advances that are currently taking place regarding the role and mechanism of viral manipulation of the cytoskeleton. Topics may include structural or biochemical insights into the interface of viral–cytoskeletal interactions, viral subversion of host signaling pathways that regulate aspects of the cytoskeleton, mechanisms of anterograde or retrograde transport of virus during replication, imaging of virus assembly and/or transport, and changes elicited by infection to cell behavior and cellular interactions that are underpinned by the cytoskeleton.

## Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Viruses* (ISSN 1999-4915). *Viruses* is published in open access format—research articles, reviews and other content are released on the internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. As an open access journal, *Viruses* is supported by the authors or their institutes by payment of article processing charges (APC) for accepted papers. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with **article processing charges (APC)** paid by authors or their institutions.

**High Visibility:** indexed within **Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, and other databases.**

**Journal Rank:** JCR - Q2 (Virology) / CiteScore - Q1 (Virology/Infectious Diseases)
